SSRH NUTRITION **&FOOD SERVICES STAFF**

FOR YOUR INFORMATION

Date: September 23rd, 2024
Sheet will be placed in binder in kitchen office. Staff are responsible for reading <u>all</u> notices.

Issued by: Morgan McCarthy
Information: Droplet Precautions

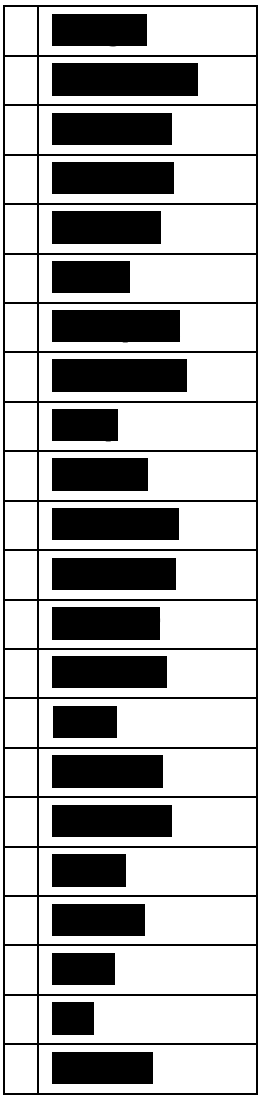
Hello Everyone,

We have had two information huddles with [redacted] from IPAC.

Going forward we will no longer drop droplet precaution trays (blue precaution rooms) at nursing stations but will be delivering directly to patients.

Please review dietary meal tray delivery procedure for proper precaution procedures while delivering.

For droplet precautions the PPE required for delivery and collection are a mask with visor/eye protection, as well as gloves. Normal hand cleaning procedures to be followed.

If you have any questions or concerns, please let us know.


Thank you.
